

SAFETY POLICY

Leonardo Turkey adopts “Safety Management System” and commits to develop, implement, maintain, and improve strategies and processes to ensure that every activity aims to achieve a high level of safety performance while meeting regulatory requirements and standards.

It is declared that all managers and employees, starting with the Accountable Manager, are primarily accountable for safety management.

Our commitment is to:

- Establish and operate the hazard identification, safety risk management and reporting in order to eliminate or mitigate the safety risks as a consequence of hazards,
- Ensure the availability of competent human resources with aviation safety knowledge and training,
- Clearly define the Safety Management responsibilities of each employee considering human factor principles,
- Ensure a positive safety culture including internal communication and reporting by supporting proactive safety management overall resources,
- Assure that no blaming action will be taken against any employee who discloses a safety concern through the hazard reporting,
- Establish safety objectives, measure, monitor and periodically review the performance for continuous improvement to assure the effectiveness of safety management system,
- Ensure externally supplied services are meeting our safety performance standards.
